

GOVERNMENT IS TRYING TO CHECK BORDER BANDITS

Washington, Oct. 22.—The Twenty-Eighth Regiment of Infantry has been ordered from Galveston to Harlingen, Texas, by the war department as a result of the renewal of bandit raids on Texas border towns.

The troops will be used by General Funston to give added protection to small unfortified ports, such as that at Ojo de Agua, where three soldiers were killed and eight wounded yesterday morning.

The twenty-third infantry now at Jacksonville, Fla., in connection with the National Rifle Matches there, will be returned to Galveston, where it will be held in reserve for use on the border.

Officials explained that the army was doing all it legally could do to check the bandit raids. The situation, they said, was a civil one under the jurisdiction of Texas. Unless the governor should formally ask federal intervention there is no authority for the establishment of a military zone and declaration of martial law. Many of the raiders live on the American side, officials believe.

Army detachments guard line various towns may expect attacks but cannot go beyond that without additional authority. As it is, the troops are being beyond a rigid interpretation of their power in aiding in pursuit of raiders.

War department officials, however, will give every possible aid to the civil authorities in protecting towns and ranches.

DOTHAN READY FOR BIG FAIR

The finishing touches are today being added to make the second annual exhibition of the Southeast Alabama Fair Association which starts Monday in every way a wonderful success.

The sky is clear and every indication is that nature will vie with man in the fair's favor, and that the second fair week of the association will be better than the first occasion of the kind held last year.

Parade Formation.

Gaily decorated automobiles and horse drawn vehicles of various kinds will assemble on West Main street, just beyond Outers street, and take up positions for the parade through the principal streets of the city. Those who will have vehicles in the parade will assemble on West Main at 9 o'clock, march through the city, and thence to the fair grounds.

The machines will be judged in front of the grand stand at noon and silver loving cups will be awarded the winners in the different departments, premiums having been promised for the best decorated runabouts, floats, trucks, horse drawn vehicles, etc. A band of music will lead the parade, followed by officials of the fair, city and county.

The races will start at the fair grounds at 2 o'clock. The first will be a running race, one half mile heats, best three in five, for \$50; mile race, one half mile heats, best two in three, \$15; Alabama owned colt race under four years old, \$100. This will be the feature race of the afternoon as colts have been entered by Will Dawkins, J. B. Long and Mike Newman of Abbeville; Will Key of Midland City and Mike Sachar.

Motorcycle races will take place between the horse races and free aerial acts will be given between heats.

At 3:30 o'clock Nuthall Patch will be paraded before the grand stand.

The aeroplane flight will occur at 4:30 o'clock.

New syrup in bottles, 20 cents; Usery Grocery Co.

Royal Scarlet Buckwheat, Usery Grocery Co.

WILSON SURE NATION WANTS SELF DEFENSE

Washington, Oct. 22.—President Wilson Thursday afternoon told a committee from the National Defense league that he is sure that the entire country is in favor of national defense measures. The committee called on the president to present him with a copy of the resolutions adopted at the National Defense congress here a few weeks ago.

SHARP SKIRMISH IS FOUGHT ON BORDER

Brownsville, Tex., Oct. 22.—Following the burning of the Yzagua ranch house near Sebastopol, 40 miles north of here last Thursday by Mexican bandits, a sharp skirmish was fought between the raiders and a squad of Texas rangers. The rangers being outnumbered, made off and the Mexicans are believed to have crossed the line.

Only 5% PLUS for the Best "Non-Skid"

PRACTICALLY all Non-Skid Tires that make serious claims to non-skid efficiency cost you 10% to 30% more than Plain Tread Tires of same brand and material.

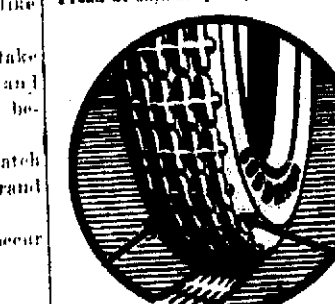

Goodrich Safety Tread Tires cost you only 5% more than our plain tread tires.

Here's how and Why!

FORTY-FIVE years of Rubber working (in what is now the World's largest Rubber Factory) has taught us a few Knks and Short-cuts that are not common to the Trade.

One of these now comes to the help of your Pocket-book.

Through the simple process of Thinking Hard (and being Candid with ourselves) we have found a Short-cut to make the *best* Safety Tread ever put on a Tire cost us only about 5% more than it costs to make the Plain-Tread of similar quality.

Goodrich Safety Tread Tires cost you only 5% more than our own or any other plain tread tire.

Note the following table of comparative prices on an "old" tire. Columns headed "G." "S." and "P." represent low, high and advertised street prices.

	G.	S.	P.
22x3	12.00	12.00	12.00
22x3 1/2	14.00	14.00	14.00
24x4	20.00	20.00	20.00
24x4 1/2	22.00	22.00	22.00
26x6	28.00	28.00	28.00
26x6 1/2	30.00	30.00	30.00
28x8	36.00	36.00	36.00
28x8 1/2	38.00	38.00	38.00

By testing out these Goodrich Safety-Tread Tires on a large number of Taxicabs (where they could be competitively observed and carefully checked up at the end of each day's use) and by comparing their actual performance with that of our own, and other Plain-Treads, of much higher price, we have had this fact forced upon us—

Vis:—That there is SURPRISINGLY more Mileage in Goodrich Safety Tread Tires, than in our own, or any other, make of Plain-Tread Tires.

So MUCH more Mileage, for only 5% more cost, looked so good to us that we decided to give Car Owners the benefit.

Here's what we now offer you!

The best Non-Skid Safety Tread ever put on the market, and it costs you only 5% more than our best plain tread tire.

RELIGIOUS REALM CHURCHES and SUNDAY SCHOOLS

B. Y. P. U. PROGRAM

Headland Ave. Church

1. Song.
2. Scripture reading, by Miss Jewell Taunton.
3. Introduction, by J. E. Woods.
4. In Matters of Religion, by Mrs. Lora Stephens.
5. Service and Worship, by Miss Alice Stephens.
6. Mixed Quartette, selected.
7. Duty as a Citizen, by Miss Lillie Woods.
8. Piano Solo, by Miss Iona Cherry.
9. About Work, by Grady Hughes.
10. Love and Marriage, by E. H. Allen.
11. Song.

Headland Avenue Baptist.

Preaching by the pastor at 11 a. m. and 7 p. m.

Subject for the morning hour: Glorification Through Death.

Subject for the evening hour: The Burning Brush.

The Sunday School will meet promptly at 9:30. Every teacher is requested to be in his or her place at that time. Remember that it indicates indifference on your part, if you are late, and will weaken your character as a teacher.

The B. Y. P. U. will meet at 6 p. m., and hopes to have a large attendance present. The main purpose of this service is to develop Christian leaders, and we trust that each one will feel the importance of it.

Notice the change in the time for the evening service, and come early. But if you should happen to be late, remember that there is always room for one more. Strangers and visitors either within the city or without will find a welcome to all the services of this church.

First Presbyterian Church.

Sabbath School at 9:30 a. m.; D. C. Carmichael, Superintendent.

Preaching at 11 a. m. and 7:30 p. m. by pastor.

Preaching to road crew in the camp at 2:30 p. m.

Christian Endeavor at 6:45 p. m.

Mid-week prayer service Wednesday at 7:30.

To all these services the public is cordially invited. There will be special music rendered at the morning service.

R. F. Campbell, Pastor.

LaFayette Street Church

Preaching at 11 a. m. and 7:30 p. m.

Look! Pure Hog Lard in 50 pound tins, 11 cents. 5 lb and 10 lb, 12 1/2 cents. Enterprise Market.

Mr. and Mrs. W. M. Mullen of Cuba, are in the city visiting Mr. and Mrs. R. W. Lisenby.

PALACE

TODAY

Charlie Chaplin in four reels

p. m. by the pastor.

Sunday School at 9:40, Judge W. R. Chapman, superintendent.

Those who are not attending Sunday School will receive a cordial welcome at LaFayette street church. We invite especially all strangers and visitors to worship with us at all the services.

G. K. Williams, Pastor.

"Things That Cannot Be Shaken"

The pastor, Rev. E. H. Jennings, will have as his morning subject at the First Baptist church, "Things that cannot be shaken," a discussion of Christian fundamentals.

This is a day of shaking, of change. Nations, ideals, institutions are being subjected to the crucible fires of criticism and opposition. But there are things that cannot be shaken—they are fundamental.

The pastor will also preach at the evening hour, 7:30.

Sunday School meets at 9:40. Prof. J. V. Brown, superintendent. We had 322 last Sunday. Classes suited to all.

Baptist Young People's Union at 6:45. Good program.

Sunday School teachers and workers meeting at 4:30 o'clock Monday afternoon. Midweek service Wednesday at 7:30.

Strangers and visitors are welcomed to all the services of this church.

Poster Street Methodist

11 a. m. and 7:40 p. m. preaching by the pastor.

Morning subject: Anvils and Hammers. Evening subject: Choosing a Husband and What to Do With Him.

9:30 Sunday School. W. R. Flowers, superintendent.

Wednesday, 7:30 p. m. prayer meeting.

Rev. Poyner Arrives in Birmingham for Sunday Service.

(Birmingham Ledger.)

Rev. Wilmer S. Poyner, of Columbia, S. C., rector elect of St. Andrew's Episcopal church of this city, will have charge of the 11 o'clock service at that church on Sunday morning. It is anticipated by the membership that a large congregation will be present to greet Dr. Poyner, who has been called by the vestry of St. Andrews to fill the vacancy resulting from Rev. Clark's acceptance of a call to Asheville, N. C.

Mr. Poyner will also be present at the evening service, but it is not known whether or not he will preach then.

THE STATE OF ALABAMA, Houston county.

PACKER'S WIFE DIES AT HER SUMMER HOME

Beverly, Mass., Oct. 22.—Mrs. Edwin C. Swift, widow of Edwin C. Swift, the Chicago meat packer, died Thursday at her summer home at Pride's Crossing from heart failure, following a shock of paralysis.

MEN ARE EMPLOYED FOR SHOOTING ABILITY

Washington, Oct. 22.—For the first time in its history the United States is going to employ "gunmen." It was learned at the customs division of the treasury department Thursday that 60 civilians noted for their ability at handling revolvers have been specially engaged to aid in enforcing the embargo on Mexico. They will be stationed along the Rio Grande.

NORWAY MUST TAKE CARE, SAYS KAISER

London, Oct. 22.—Germany has warned Norway she won't be responsible for the future sinking of Norwegian ships unless more Christians, the Russian port of care is taken to show the ships are neutral, according to the press bureau. The press bureau Thursday gave out the text of the German note to Norway relative to the sinking of the Svein Jarlon on June 9.

NEWSPAPERARCHIVE

RUSSIANS IN ASCENDENCY ON EASTERN FRONT

London, Oct. 22.—On most of the long eastern front the Russians seem to be in the ascendancy, but both Petrograd and Berlin emphasize the increasing danger of Riga's position.

From the southwest the Germans are nearing the village of Olai, which is only twenty miles from Riga. They are also increasing their hold along the Dvina river, to the southeast of the city, being in that quarter within eight miles of their goal. The Russians assert that German attacks in the region of Olai were repulsed, but the Germans are bombarding the Riga-Dvina railway beyond the Dvina, interfering with the forwarding of Russian reinforcements.

According to dispatches from the Russian port of Archangel already has been closed by ice. If this be true, Russia will be deprived of this means of bringing in supplies unless icebreakers are able to work successfully.

"SQUEEZES" FOR YOUR TIRES

NEAR DEATH BY SMOTHERING

But Husband, With Aid of Cardui, Effects Her Deliverance.

Draper, N. C.—Mrs. Helen Dalton, of this place, says: "I suffered for years, with pains in my left side, and would often almost smother to death. Medicines parched me up for awhile but then I would get worse again. I finally, my husband decided he wanted me to try Cardui, the woman's tonic, so he bought me a bottle and I began using it. It did me more good than all the medicines I had taken. I have induced many of my friends to try Cardui, and they all say they have been benefited by its use. There never has been, and never will be, a medicine to compare with Cardui. I believe it is a good medicine for all womanly troubles."

For over 50 years Cardui has been relieving woman's sufferings and building weak women up to health and strength. If you are a woman, give it a fair trial. It should surely help you, as it has a million others.

Get a bottle of Cardui to-day.

Write: Chattanooga Medicine Co. Ladies' Advisory Dept. Chattanooga, Tenn. for further facts on your case and 64 page book, "Home Treatment for Women," in plain wrapper. N. C. 126

Fair Week

CITY WELCOMES VISITORS TO FAIR

By Chester R. Vickery.

Hearts of loyal Dothan men and women who were born and raised here and hearts of others who came from afar and located here will pulsate with joy today for they are so happy that interested persons from distant communities are in our town.

Being in our town, every visitor, it matters not from whence they came nor who they must catch something of the Dothan spirit and feel that they are welcome for on every hand are tokens of hospitality that strangers within our gates will not miss.

It is impossible to walk the streets of Dothan, to lounge in the lobbies of our hotels, to tarry in our stores, to visit our public buildings or to breathe the pure air which helps make residents so healthful, without an inner feeling creeping upon one—a little something which seems to echo again and again the friendly words of "welcome."

It is writ everywhere in large letters, it is seen in the beaming smiles of every native man, woman and child. Visitors must not miss the fulness of this Dothan greeting which is free, honest and to all. And if they will be perfectly fair with themselves, like we feel sure they are going to be, they will not miss this whole-souled welcome.

This is fair week in Dothan—what Madri Gras is to New Orleans—a time of fun and sight-seeing, a week of confetti and little painted whips, to say nothing of rubber balloons and weinies. This is a week of play for Dothan and to every guest within her gates Dothan most heartily says: "Come play with us. The more the merrier. We won't get mad if you throw confetti in sister's eyes. Just do your worst."

And so the big week of fun is on and everybody is contemplating a wonderfully happy time and you are expected to lay aside your grouch if you have one and take part in the festivities.

Officials Welcome You.

It would be bad manners to end this welcoming part of our story without saying a few words about Joe Baker, mayor of Dothan, who is mighty glad so many guests are here, and John Sanders, president of the Southeast Alabama Fair Association, who is as happy over the strangers in our town as a baby is over a new rattle.

Now it is doubtful if Joe Baker has ever written a formal welcoming epistle in his life as he is one of those chaps who like to catch a fellow by the hand, squeeze it right tight and say: "Glad to see you John." So is the mayor and in discussing the subject he said: "The gates of the city are wide open. I have lost the keys and nobody can find them. Go right ahead, see the town, have a big time, get all the fun possible, and come again."

John Sanders wears a billed shirt and a stiff collar but he lived in the country once and is really a successful farmer. He runs a store here, still has his farming interests, and is president of the fair. Consequently he is interested in live stock, agriculture, etc., and gave this ex-

pression today: "I feel sure that this, the second annual exhibition of our fair, will be very successful, and the officials of the association are glad that so many guests are here—we hope that all will see everything of interest at the fair, particularly the exhibits in the various departments, which show what is being accomplished along the different lines by Southeast Alabama people."

Coming of Trains.

Back in 1891 weary travelers were wont to stop at Poplar Bend springs and drink of the refreshing waters, and probably prior to that period, when Poplar Head was attracting a little notice, some pioneer settler may have built a shack in the woods. And soon other settlers came and began home-making. Eventually Dothan, having taken on a new name, emerged from its swaddling clothes as all normal youngsters do, and the next thing any-

questions and, people from far and near—good people with hard hands and fine bodies—started a movement towards Southeast Alabama and Dothan was the heart of it. The movement was not spontaneous or hysterical but steady and sure—so sure that the thousands of visitors here this week will see from one part of the town to another, the results of it all.

In the Midst of a Forest.

As visitors gaze upon the Young building, five stories of architectural triumph, or the government building, the municipal building, our school structures and houses of worship, to say nothing of the stores, various plants and attractive residences which are the outer guard of our hustling business district where activity is the pass word, they will marvel at the growth and development of the city, yet they will not understand.

To understand one must know something of the early struggles of a town in the making, of the municipal rows and family quarrels which every commonwealth has, yet which Dothan laid aside as one man if the community welfare was threatened. And Dothan grew and grew despite petty political wrangles and provincial jealousies. Why? In this good day some of the ancient reference books say: "Dothan, situated in the midst of a pine forest." In that sentence is a story all its own, a story of

ging hither and you, eager to see and anxious to hear, there is but one guest we have not invited to our town and section. This guest, having the worst manners imaginable, but being something of a Don Juan around cotton, came without our bidding. Maybe a few of him will be at the fair grounds. We refer to our old tourist, Billy Boll Weevil of Mexico, whose wooing of cotton has attracted nation-wide interest.

Having grown weary of the revolutions and political strife in his own country, Mexico, Mr. boll cotton fields, then tarried in and now is claiming Alabama as fair courting ground.

Now this is a secret and don't tell it: the visit of the unwelcome guest was not expected and everywhere Southeast Alabama farmers are preparing to meet the situation intelligently and Weevil paid Texas a call, visited Mississippi and a few other states grow some cotton and get along regardless of Mr. Boll Weevil. True the acreage will be greatly reduced. Meetings are held from time to time, competent farm demonstrators are in charge, and everywhere the problem is being treated seriously—not with contempt or indifference.

There are some who say, and men of wisdom and means, that the boll weevil is a blessing in disguise and will result in the abandonment of the one crop per

to do fairly well at that. Afterwards the way is very clear, the rainbow of promise hangs in the sky, and prosperity beckons us—judging from present signs of the times.

And the Mexican boll weevil, with his bill which we must refuse emphatically, is not such a menace if the people meet the situation intelligently, like Dr. W. E. Hinds, state entomologist of Alabama, has told them to do.

Lowling of the Cows.

Let us turn briefly to the lowing of the cows and the squealing of the pigs, the bleating of the sheep and the cackling of the hens, for the mind of the progressive farmer, having already understood Mr. Diversification, who told him of corn, peanuts, beans, peas, etc., now must listen to the animals of the farm which supply our country with meats. And if he heeds he is a wise man in his time. This section of Alabama is particularly adaptable to the raising of various kinds of live stock and smart farmers are taking up this new idea which will provide them with something to eat at home, and also something to sell.

The promotion of the live stock industry as well as diversified farming is an important undertaking of the Southeast Alabama Fair Association and you will find types of all kinds of stock and cattle at the fair this week. See them. Ask about them. Study and think,

from the Bible—"Let us go to Dothan"—and that while you didn't find heaven here you found as much of a paradise as you will find on earth, among a happy, progressive, prosperous and generous people.

DANGER OF WAR TALK.

The commercial traveler seated himself in the corner seat and carefully adjusted his portmanteau on the floor, says Tit-Bits.

Then he handed a newspaper to a passenger opposite, and remarked: "Another of those dispatch-riders captured, you see? they don't know the A B C of their business."

"I suppose you could teach them?" remarked the man opposite, with an attempt at sarcasm.

"Well, I think so. You don't know Jones, I suppose—Jones, of Birmingham? Smart man, he is! Well, he went out to the Transvaal with the Yeomanry. He was given some dispatches to carry, but he didn't get caught. No, sir. He had his head shaved and then had the message tattooed on his scalp. Then he applied his hair restorer, and he felt safe. He was stopped three times and searched, but, of course, nothing was found. Finally he reached his destination, and had his head shaved again, and went to show his head to the general. Oh, he was smart! I tell you! And now, gentleman, if any of you would like to try

a bottle of our 'Grow-up' Hair Restorer, price three shillings and sixpence, I will give you ten guaranty that—Thank you, sir. Three shillings and sixpence, ten shillings leaves six and a Good day, I get out here."

World's Finest Coronation to Cost Japan \$2,000,000

Emperor and Empress Will Be Crowned in Japan in About The Quickest Way Possible.

Tokio, Oct. 23.—At a cost of \$2,000,000 an emperor and empress will soon be crowned in Japan—the land of queer things—in about the queerest way possible.

The ceremony, which will take place November 10 in Kyoto, an ancient capital, will be more impressive than the coronation of the czar of Russia.

It will be more gorgeous than the great durbar in India. It will, in fact, be the most wonderful ceremony in the world—but it will also be the funniest—to the eyes of the western world.

All the ancient rites and customs will be observed. Altars on the tops of the highest mountains throughout Japan, thousands of

(Continued Page 2.)

body knew the Alabama Midland railroad was headed this way. In some Southeast Alabama villages the wise ones in power turned up their noses at the railroad project but Dothan did not. Dothan said then as it says now "welcome to our city," and the railroad, which was backed by human beings who did not like to have noses turned up at them, came. There was not a frown on a Dothan face because of the coming of the iron engines, the "tooting" of which signified the bringing of education and prosperity to our very doors. The Alabama Midland, now the Atlantic Coast Line railroad, put us in touch with the outer world of which we were destined to learn more.

Time passed on as time will do and the outer world began to ask questions about Dothan, and Dothan, ever polite and hospitable, began to answer those

men hewing down trees of the timber being sawed at the numerous mills and being put up in houses by the carpenters. True some of it was shipped away but a goodly portion of pine forests once so abundant in this section, shelter Dothan houses from the caprices of the weather.

And the pine forests have almost disappeared and those smart workers who compile information for encyclopedias will have to obtain later information about Dothan and say: "Dothan, situated in a prolific agricultural section, where manufacturing is also coming into its own."

The pine forests are becoming mythical, turpentine stills are few and far between around Dothan, and in fifty years from now this city may be a real metropolis. It is becoming more and more that way every day.

An Unwelcome Guest. Of all the multitudes strug-

gle and pray, and the boll weevil will leave us some day, perhaps a wiser people, and very probably, a wealthier people. Visitors to Dothan—take in the fair, have your share of the fun, use the means God provided them with and do their tasks well. The soil is prolific, the time is ripe, the way is clear. True, the next two years may be something of an uphill climb, but people ought you received your instructions

World's Finest Coronation to Cost Japan \$2,000,000

(Continued from Page One.)

the famous sacred mountain, Yama, fires have been lighted. This is one of the century-old ways of announcing to the people that the coronation of the emperor is approaching. The coronation will be celebrated on a grander, vaster scale than was the great funeral of the emperor Mutsu, two years ago. Another funny thing about it is that there is no state reason for a coronation ceremony. According to custom dating from the reign of the first heaven-born emperor, Yoshihito became emperor when he left his father's body.

The old emperor did not have a coronation because he was with delight, for there has been no such event since 1868, more than a dozen years after Commodore Perry had opened the doors of Japan to the world.—Atlanta Journal.

DEADLY TORPEDOES From Tit-Bits.

The principal type of torpedo used in the present war is known as the automobile torpedo, the cost of which varies from eight hundred to a thousand pounds. The length is from 14 feet to 20 feet and the weight half a ton or more, the steel body being cigar shaped and consisting of four sections, firmly screwed together.

These four sections are known as the warhead, which is one-eighth of the total length and carries the explosive charge of from 200 to 300 pounds of gun-cotton; the air reservoir, the balance chamber, which contains the mechanism which actuates the horizontal rudders of the tail and so keeps torpedo at its correct depth which is, of course, set before the weapon is fired and the buoyancy chamber, which also contains the gyroscope for correcting any deviation of the missile from the line of fire.

The torpedo shell travels under water at a depth of about 14 feet and at that depth shows very little disturbance of the surface. Recently dyeing establishments. When the German submarines pumps stop for a day the water rises sufficiently for the spring to flow.

At first glance an account of a spring that flows on Sundays and holidays appears to be a mere tale of fancy but the proceedings of the Connecticut Society of Civil Engineers solemnly assures us that there is such a spring in the state. This spring, which is located in a picnic ground, formerly flower perpetually but now its activity is confined to Sundays and holidays. The mystery is explained by the fact that artesian wells have been drilled in the vicinity of the spring to supply water for nearby silk-dyeing establishments. When the German submarines pumps stop for a day the water rises sufficiently for the spring to flow.

In his hand the emperor holds a piece of wood called a shaka, which also figures in the shinto rites. On his feet are clogs of red and black lacquer which have formed part of the coronation costume from the time when Japanese history merged into mythology.

The empress will occupy a smaller throne at the left of her lord and master. She will wear more than a dozen kimonos—for that is a sign of a high born woman. Like the emperor her outer kimono will be of yellow silk and gold, but the under ones will be of green and purple. Her hair will be dressed in the ancient style with two long silk tassels hanging from a priceless jewel piece on her forehead.

The throne room in which they will receive after the crowning ceremony is in the center of the abashin-den or great hall of the wonderful palace in Kyoto, the ancient capital.

Japan, in spite of the burden of war and debts, is hailing the expensive coronation ceremony with delight, for there has been no such event since 1868, more than a dozen years after Commodore Perry had opened the doors of Japan to the world.—Atlanta Journal.

SHOOTING FOR RAIN.

From the Youth's Companion.

At a recent meeting of the Royal Meteorological Society, Dr. H. R. Mill, director of the British Rainfall Organization, discredited the theory that the firing of the shot of war was the cause of the heavy rainfalls of last winter. Those who argue that cannonading causes rain assert that the concussion shakes the air and thus precipitates the moisture in the clouds. If that theory is correct, the precipitation should occur immediately and in the area within which the explosions shake up the air strata. As a matter of fact, the lack of rain in the western war area during the months of September, October, March and April was noticeable and unusual. In the same way he said, people had attributed the exceptional wetness of the winter of 1903 to the general adoption of wireless telegraphy. The fact that the winter 1873, which was long before the use of Hertzian waves, was notably wet, and that no year since 1903 has been nearly so wet, in spite of the enormous increase in radiotelegraphy, shows the inaccuracy of such an explanation.

SPRING FLOWS ON SUNDAYS. From the Pathfinder.

At first glance an account of a spring that flows on Sundays and holidays appears to be a mere tale of fancy but the proceedings of the Connecticut Society of Civil Engineers solemnly assures us that there is such a spring in the state. This spring, which is located in a picnic ground, formerly flower perpetually but now its activity is confined to Sundays and holidays. The mystery is explained by the fact that artesian wells have been drilled in the vicinity of the spring to supply water for nearby silk-dyeing establishments. When the German submarines pumps stop for a day the water rises sufficiently for the spring to flow.

Militant Bobby.

With the coming of the twins, says Everybody's Magazine, the entire household arrangements were sadly disorganized. Master Bobby and Miss Dorothy were relegated to the background, where they moped and sulked.

Bobby, more militant than his sister, was scouting through the upper halls one morning when he discovered the twins being prepared for their bath. Having in mind the fate of several litters of kittens within his knowledge, he rushed to the head of the stairs and, beckoning to his sister, cried in a hoarse whisper:

"Dottie, come on up, quick! They're going to drown one of 'em!"

His Last Resource.

Jack disliked being kissed, relates Tit-Bits. One day he had been kissed a lot. Then, to make matters worse, on going to the picture palace in the evening, instead of seeing his favorite cowboy and Indian pictures there was nothing but a lot more hugging and kissing. He returned home completely out of patience with the whole tribe of women.

After he had been tucked into bed mother came in to kiss him good-night.

He refused.

Mother begged and begged, till in disgust, he turned to his father, who was standing at the doorway, looking on, and said:

"Daddy, for heaven's sake, give this woman a kiss!"

FAIR VISITORS Dothan and the
Saxon-Heard Dry Goods Co. BIDS YOU WELCOME
to Southeast Alabama's Exhibit of representative products at the Fair Grounds and Women's, Misses and Children's wearing apparel at this Big Store.

You'll find every product of the field, farm and home in the big Fair Exhibits and every article of wearing apparel, of the right quality, with the stamp of the world's foremost makers of stylish wearables on exhibit in this big store.

Your visit to the city will not be complete without a visit to this Southeast Alabama's leading showing of Women's wear.

Suits, Dresses, Coats

The newest and latest creations of the foremost snit, dress and coat designers are here; literally hundreds of the most desirable styles from which to make a selection. If you wish to see the new Mid-season's style changes the large display in our garment section (Second Floor,) will prove exceptionally interesting as well as profitable.

The New Dress Fabrics

Every new material, every new color effect, and every staple dress fabric will be found at this Dothan's largest dress goods department. The LaPorte Fabrics, with a world's reputation for quality and durability, in all of the newest designs are foremost in the showing. Silks in all of the new colors and new plaids, wool goods in great variety all priced very reasonably.

Hosiery

That people of Dothan and surrounding country have learned to depend upon this store for their high grade hosiery is no surprise when you consider the magnitude of the showing in this department. From the high grade Onyx in pure silks to the small child's stockings you may be sure that you get only dependable merchandise and at prices that mean the most value for the money.

Visitors to the fair are cordially invited to make this store your resting place while here; use our rest room, use our telephones, meet your friends here and make yourself at home with us.

An atmosphere of rest and comfort in shopping prevails at this woman's store, which we cordially invite you to take advantage of while you are in the city. Make this store your store.

The New Fall Footwear

The large shoe section is complete with every desired shape, every wanted material in such shoes as Wirth & Gardner, Duttonhoefer, New York's style leaders, in the women's and misses' shoes and Merriam's in the children's.

You will be pleased at the ease with which we can fit you even if you are hard to fit and at the great values you get here for the most reasonable prices.

Millinery

We have always been proud of this department and are more so this season. Here you may select any hat you wish and know that it will have an air of individuality about it. We take delight in helping you plan your hat.

Too much praise can not be given these ladies who have worked so faithfully to make their department a success.

Dothan Fair As An Educational Institution

By J. L. Jordan.

A new era in the history of the Wiregrass is marked by the opening of the second annual fair of the Southeast Alabama Fair Association at Dothan.

The fair is not a commercial enterprise conducted for profit but is intended as an educational factor along broadest lines. It is the outgrowth of the rapidly changing conditions in the agricultural sections of the South which are forcing the farmers of this section to turn from cotton their independence for a money crop since the woods were cleared and the land put in cultivation, to other crops and food and stock raising.

In bringing about such a radical change, in taking away from a people an occupation which they have been trained in and giving them something to do which they know little of, it is necessary that knowledge of the new work to be done be given the people who are called upon to undertake it.

Southeast Alabama's first fair agricultural fair is intended to play an important part in disseminating this knowledge.

It has become necessary for this section to raise its own meat instead of importing it from the West and paying two to three times as much for it as it could have been raised for right here at home.

In making arrangements to provide our own smoke house with meat it is essential that the best breeds of hogs, cattle, sheep, goats, chickens, etc., be obtained in order that the cost of production be kept as low as possible and the most profitable results obtained.

There has been assembled at this big fair the greatest collection of thoroughbred animals ever gotten together in this section of the South.

Here will be found the varieties of cattle best adapted to this climate and section. There are beef and dairy breeds from the best known and most successful stock farms of the South. There are individual exhibits from our own people of this section who are trying out these various breeds and here show you what success they are having.

Here are home-raised mules and horses that have been right here in our own country. They show what can be done in this line at a time when we have been importing animals by the thousands and which are not one bit better.

Here have been placed on exhibit splendid specimens of thoroughbred hogs, hogs that will grow twice as fast as our old fashioned "rooters" and eat much less while they are doing it. All varieties best adapted to mules, cattle and swine.

Here have been placed on exhibit splendid specimens of thoroughbred hogs, hogs that will grow twice as fast as our old fashioned "rooters" and eat much less while they are doing it. All varieties best adapted to mules, cattle and swine.

VERY REALISTIC.

Guy James F. Fielder, of New Jersey, smiled when references were made to realism. He said he recalled an incident that happened in a little country church, according to the Philadelphia Telegraph.

One Sunday night the good person of the aforesaid church chose Hades for his theme and even as he eloquently discoursed an absent minded member of the congregation began to toy with a nickel plated match safe. For voice.

ally the matches caught fire and were necessarily dropped to the floor and covered with a large foot.

"It is wonderful, Mary," whispered an elderly woman to a friend in the seat ahead of the match-playing pariahoner. "It is simply wonderful!"

"I suppose you mean the pariahoner's remarks," "Sarah," responded the other in a subdued voice.

WINNING THE SOUTH FROM WIRE TREAD

National Automobile Chamber of
Commerce Hopeful of Rapid
Progress—Reeves Confers with
Wagon Makers—Figures on
Vehicle Production.

Particularly for the benefit of
Southern automobile dealers and
users, as well as the manufacturer
ers, the National Automobile
Chamber of Commerce, through
Alfred Reeves, its general manager,
has been doing effective work
this week in helping bring about
conformance to standard 54 or
56-inch tread in the South, and
the abolishment of the bothersome
60-inch tread. Reeves was in
Washington for two days at a
conference presided over by Logan
Waller Page, of the Bureau
of Roads, and at which were represented
the National Wagon
Makers' Association, the National
Implement and Vehicle Association,
and the Southern Wagon
Manufacturers' Association.

The horse-drawn vehicle men,
who now supply treads from 52
to 66 inches, favored the adoption
of two sizes of tread—the 54-
inch and the 60-inch—for the
present, and the ultimate adoption
of one tread, the 54-inch.

There are now 15 members of
the National Automobile Chamber
of Commerce who supply 60-
inch tread cars on order, but it is
an extra expense that they would
like to have lifted. The wide
tread seems to have its greatest
stronghold in Southern Georgia
and northern Florida. It developed
at the conference, however,
that with the road improvements
now being made in the South and
the co-operation that is being
given, it will be possible by next
year to have the standard tread
universal in the South.

Incidentally it transpired at
the meeting that 500,000 farm
wagons and 800,000 buggies and
carriages are being made per
year, and that farm wagon demand
is based on the fact there
are 7,000,000 farms in the United
States, each of which presumably,
requires a wagon.

The Dothan fair next week is
going to be a big one. The agricultural
and live stock exhibits will be
much bigger and better than last
year when everybody was in the
dumps on account of the European war
and low price of cotton. Nothing
but the worst kind of weather
can prevent its success.

703,526 CARS ARE

SEASON'S OUTPUT

Chamber of Commerce Figures
Show Sales for Year of 665,000
Pleasure Cars and 37,700
Trucks—Value More Than
\$523,000,000.

More than \$523,000,000 worth
of motor vehicles were made and
sold in the United States during
the year ending June 30, 1915,
which is practically the close of
the selling season under present
conditions where early announcements
of succeeding products demand
a prompt clean-up on current
products. The aggregate was
represented by totals of 665-
826 pleasure vehicles, valued at
\$450,941,131; and 37,700 commercial
cars of all types, valued at
\$72,522,692. The figures are
those compiled by the National
Automobile Chamber of Commerce,
and are semi-official in character,
being practically the only industrial
statistics pertaining to current
automobile manufacture on which
reliance can be placed.

While the aggregate value of
pleasure car production increased
by ten per cent, as compared
with the corresponding year preceding,
the number of cars increased
by no less than 36 per cent.

The total number of automobiles
now in use in this country is
shown by estimates based on
States registrations to be in excess
of 2,000,000.

"IT'S NO JOKE."

"We begin the publication of

ter a phashion till the sorts ar-
rive. It is no joke to us. It's a
serious aphphair."—Every-
body's.

DODGE PLANT RAISES

TOWN POPULATION

Detroit, Mich., Aug. 7.—Here
is a good and strong example of
what the automobile industry
really means to a community. In
1910, when the census of the vil-
lage of Hamtramck, a suburb of
Detroit, was taken, it showed
that there were 3559 inhabitants.
The plant of Dodge Bros.
is located there and at that time
the concern did not make auto-
mobiles, and employed between
600 and 700 men.

Last year it was decided by
the U. S. Government to have a
special census taken of the vil-
lage. The returns showed that
there are now 21,242 inhabitants
which has caused the village of
Hamtramck to be raised from
the status of a third of fourth
class city to that of a first class
city. It means, among many
other things, that the people will
get free delivery of mail and
that the pay of the officials of
the post-office is to be raised.

All this is due practically en-
tirely to the fact that Dodge
Bros. are now motor car manu-
facturers. They now employ
over 9,000 men in their plant.

DIXIE MAGNETO FIRST FOR TWELVES

Magneto ignition for twelve-
cylinder cars may now be said
fairly to have been launched.
The Splendor Electrical Co., of
Newark, N. J., first in the mar-
ket with this style of instrument
in its new type Dixie magneto,
has won the distinction of initi-
ating the movement, and is now
supplying this equipment for
National "Highway" Twelves.

"FORD TRACTOR" APPEARS AT FAIRS

"Ford tractors" have been
exhibited at several of the cen-
tral and northwestern state fairs,
while more or less extensive
demonstrations have been made
in Central Illinois with so-called
"Ford" tractors. Investigation,
however, discloses that the
tractors in question were not
made by the Ford Motor Co.,
of Detroit, but by another
"Ford" concern in Minneapolis,
Minn. The company is turning
out a light tractor, calling it
simply "The Ford Tractor," and
it is said, permitting people to
labor under the impression that
it comes from Detroit.

Author's Interesting Experience—
 Readers of "The Truth About Tolna," an earlier story by Ben Runkle, author of "Straight Down the Crooked Lane," will of the illustrious family of Tolna, the opera singer, was re-puted to be the last scion of a Runkle's story. Though he re-noble Hungarian family. In her mail one morning Miss Runkle Tolna" was a work of fiction, found a letter from a reader, still it related so accurately and

the incidents in the history of the Tolna line that he knew the author must have an intimate acquaintance with the family. He would be extremely grateful for any news she would give him of this distinguished race, his father's and his grandfather's land-lords, whom he had been brought up to hold in admirable respect. As Miss Runkle had evolved out of her interior consciousness both the name and the history of Tolna. He could only give a stone for bread to this eager inquirer. She trusts that the "illustrious family," whose existence her reader yearns for, never read American novels and are not aware that besides helping herself to their title she has unconsciously plagiarized their tra-

Remington-UMC
22's Have the Call!

WITH the rise of 22 rifle-shooting to the level of a sport, Remington-UMC became the fastest selling 22 ammunition in the world. Whatever make of 22 rifle you shoot, Remington-UMC Cartridges will give you better, surer results than any other in the world. Go to the leading dealer, the one who displays the Red Ball Mark of Remington-UMC. He'll tell you what sportsmen think about these famous cartridges, and he'll show you the Remington-UMC 22 rifle, Single Shot, Slide-action, and Auto-loading in a class by themselves for "kick," easy operation and consistent performance.

Sold by your home dealer and 2430 other leading merchants in Alabama

Is Being Called for by Proud Women Who Know that this

Fair visitors are cordially invited to make this store your store.

The New La Vida Corsets

fulfill every demand for fashions, correctness and physical comfort.

Millions of women are wearing knew what a well day was before they discovered the La Vida. These women had every advantage for preserving their youth and beauty except one, they lacked the La Vida Corset.

Today their La Vida Corsets are a part of them. Their well poised graceful bodies are a compliment to their ability to keep pace with younger women who have not protected their health and happiness with La Vida Corsets.

La Vida Corsets are carried here in the newest models for women of every figure. Prices ranging from \$3.00 to \$6.00

Are different from the usual run of popular priced boots. They are boots of a finer quality and the scores and scores of styles reveal a certain taste that appeals to women, who, like you, choose their footwear carefully. Every smart effect in Fall footwear—the new Gipsy boots in lace and button and the attractive regulation models with the trim concave or Louis heels—awaits your critical choosing.

Why not come in Monday while the stocks are in the very pink of perfection?

BILLIE BURKE LOSES \$6,000 IN ROBBERY

San Francisco, Oct. 22—Miss Lillie Burke, the actress, was the heaviest loser when an accounting was taken today of the losses of guests of the St. Francis hotel whose rooms were entered by a burglar last night. Miss Burke estimated her loss at \$6,150, including three diamond rings and a diamond studded watch.

TURKS ACCUSE THE ALLIES OF TORTURE

Washington, Oct. 22—Charges that Greeks, Armenians and Russians murdered, pillaged and attacked women and girls of all ages along the Caucasus frontier and Turkey were laid before
